**Presentation – East Shore Industries**

Melissa Annoye introduced President and CEO of East Shore Industries, Tracy Nelson, committee member MaryAnn Szydel and Tammy Szydel. All were all present to share information about ESI.

Tracy Nelson began her presentation with a brief history of her many years working for ESI. She followed with an overview of past and present programs and services, populations served, and community involvement. Tammy shared some of her experiences and also talked about the community outings she participates in. MaryAnn shared how much she appreciates everything about East Shore Industries, how much she enjoys volunteering there and spending time there, and the impact East Shore has had in the life of her daughter. She shared that she is extremely grateful for services provided by ESI. MaryAnn noted that she believes it is very important for people with special needs to be able to get out into the community and learn life skills; she explained ESI does a great job with community programming. Committee member, Paul Ravet, shared that he is also very grateful for the services provided by ESI. He noted the many opportunities available through East Shore Industries.

Tracy discussed their current shift in trying to get individuals out into the community, while also trying to better integrate their building to be more available to the community. She shared that they have a new room called “The Hub” which was built for the use of not only ESI, but also for any other community members in need of a space for meetings, classes, support groups, exercise classes, trainings, etc. The room is free of charge.

There was also some discussion regarding their transportation program.

Tracy shared that East Shore Industries is unique to Kewaunee County and that there are no other counties in Wisconsin that have anything like it. She emphasized we are very fortunate to have East Shore and has had many outside inquiries on how to start something like it.

**Human Services Financial Unit Update – Melissa Annoye**

Brian was unavailable for this meeting so Melissa reviewed the monthly reports in general finance, billing, contract status, state aid, and vendor reports, while also providing clarification to committee member queries when requested. Revenues and expenditures are all in-line. Bottom line is positive and the final 2022 year-end audit should be finished by the end of May.
